

Our Vision is Safety

PRODUCT CATALOGUE

7TH EDITION

OUR COMPANY PHILOSOPHY: OUR VISION IS SAFETY

Welcome to the Seventh Edition of the VISIONSafe Catalogue. Designed as a comprehensive guide to the extensive range of VISIONSafe products, these pages will assist you in selecting the correct products from our diverse range.

The team at VISIONSafe are committed to providing only the best in personal protective equipment. Established in 1998, VISIONSafe is dedicated to sourcing, designing and manufacturing the latest in safety equipment innovations, maintaining our presence at the forefront of safety supply.

Uniqueness of product continues to be a key feature of the VISIONSafe range. We both design and discover the best of products from within Australia and across the globe, including the United States, United Kingdom, Taiwan and South Africa in order to provide the latest in product innovation.

Our product portfolio started many years ago with a safety eyewear range that focused on style as well as safety. This range has grown exponentially over time to now incorporate an innovative collection of Australian designed first aid kits, personal and vehicle safety lighting including the premium ACOT500 range from South Africa, and safety knives sourced from The Safety Knife Company in the United Kingdom.

VISIONSafe also now offers a greatly expanded and improved safety eyewear and sunglasses range, the UVeto specialist brand of sun protective headwear, unique and versatile Australian Made cylinder restraint systems from BOTTLECHOCK and a diverse selection of hand and body protection equipment including Derma Guard – the Ultimate Skin Protectant. The newest addition to the VISIONSafe brand portfolio is from Newcastle Hats - an iconic Australian Made headwear range.

With many years of industry experience, our team takes enormous pride in their depth of product knowledge and exemplary customer service. At VISIONSafe, we endeavour to give our best to our customers at all times.

The policy of continuous innovation and improvement that we apply to all our products extends to our people as well. A nationwide network of distributors supports retail and industrial end users, and we welcome visits to our website at www.visionsafe.com.au

We appreciate your support to date, and look forward to continuing our relationship into the future.

CAN'T FIND WHAT YOU'RE LOOKING FOR?

Contact our friendly sales team who can assist you in developing a solution. Our manufacturing facility in NSW can create a variety of custom products from canvas, cotton, leather and other fabric types to order. Our buying team also has access to a wide range of other products sourced both locally and overseas.

Disclaimer: Whilst every care and attention to detail has been taken in the presentation of products in this catalogue, Vision Safe Pty Ltd accepts no responsibility for manufacturer's changes and/or amendments to product specifications displayed in the catalogue and reserves the right to supply these changed products as necessary. Not all products displayed herein are stock items and may be subject to order. Images are not to scale and are representative only.

LIGHTING THE WAY

VISIONSafe's extensive range of safety lighting includes specialised lighting for a wide variety of applications. From personal headlamps to customisable minibars, our staff can assist you to develop the best lighting solution for your requirements.

Our lighting product portfolio incorporates the ACOT500 range - a premium selection of Rotating, LED and Strobe Beacons and Light Bars sourced from South Africa. This high quality range is designed specifically for the mining, forestry and construction industries, along with emergency services vehicles and any workplace or industry where vehicle visibility is a priority.

FOXFIRE

- Heavy duty portable signal light
- 26 super bright LEDs
- Magnifier on each LED to increase light intensity
- Front and side illumination
- Operates on 4 AA batteries

Part No	Colour	Part No	Colour
F263A	Amber	F263B	Blue
F263R	Red	F263RB	Red/Blue
F262G	Green	F263RW	Red/White
F262W	White		

- Suitable for use within a traffic cone
- Dimensions: H100mm x D50mm x W160mm
- **F262:** operates in static (constant on) or flash mode
- **F263:** operates in static (constant on), wig-wag (side to side) or flash mode

FOXFIRE ACCESSORIES (Foxfire sold separately)
A variety of accessories are available to customise the Foxfire for maximum results in a range of situations.

F PLUB

F MSRT

F ADMB2

F BB

PI-LIT® SEQUENTIAL FLARE

- Simply turn on one at a time and flares will automatically sequence
- Directs traffic and warns drivers of activity ahead
- No limit to number of flares in a sequenced chain
- Super bright 360° viewing angle
- Automatically adjusts LEDs to horizontal or vertical orientation
- Rugged and durable design to withstand the toughest conditions
- Magnetic base for quick attachment to vehicles
- Operating frequency within the 2.4 GHz range
- Five group frequencies available to order allowing multiple sequenced chains to operate within the same area – yellow (default), blue, green, orange, beige
- Suitable for use in rain and snow
- Operates on 4 AA batteries per flare
- Approximately 3-4 days of continuous use battery life
- Available in rechargeable version on request

Part No	Colour	Description
PLSFYA/R	Amber/Red	Individual Flare - Default Frequency
PLSFYB/B	Blue/Blue	Individual Flare - Default Frequency
PLSFYR/R	Red/Red	Individual Flare - Default Frequency
PLSFYA/R-KIT	Amber/Red	Set of 10 in Carry Case - Default Frequency
PLSFYB/B-KIT	Blue/Blue	Set of 10 in Carry Case - Default Frequency
PLSFYR/R-KIT	Red/Red	Set of 10 in Carry Case - Default Frequency
PLRC		Pi-Lit Remote Control

PORTABLE RECHARGEABLE BEACON

- Amber LED rechargeable beacon
- 6 high intensity 1 Watt LEDs
- Available with 6 rare earth magnets on base
- Operates on 12V, 7A battery (not included)
- Includes 100-240V input charger
- Dimensions: H290mm x D223mm

Part No	Colour	Operating Voltage	Flash Pattern	Magnets
ALB7206AB	Amber	12VDC	Single, Double, Quad, Rotating, Static	0
ALB7206ABM6	Amber	12VDC	Single, Double, Quad, Rotating, Static	6

* Also available in Red, Green, Clear, Blue and Magenta

* Replacement parts and other options available

PORTABLE LED BEACON

- Compact and portable 360° LED light
- 24 super bright LEDs
- Magnetic base
- Dimensions: H121mm x D104mm
- Operates on 2 D batteries
- Switch activated Day/Night function allows beacon to automatically turn on in low light situations

Part No	Colour	Flash Pattern
PL24AM	Amber	Triple Flash

TRAFFIC CONE LED LIGHT

- Fits most traffic cones
- 1 Watt LED
- Operates on 3 C batteries
- Available in manual on/off version or with day/night function
- Flash patterns: Single, Double, Quad, Static On
- Static on function overrides day/night function, allowing the ability to leave the light on
- Operating temperature: -20° to 80° C
- Clear lens version also available

Part No	Colour	Description	Part No	Colour	Description
AL2AAO	Amber	On/Off	ALN2AAO	Amber	Day/Night
AL2RRO	Red	On/Off	ALN2RRO	Red	Day/Night
AL2GGO	Green	On/Off	ALN2GGO	Green	Day/Night
AL2BBO	Blue	On/Off	ALN2BBO	Blue	Day/Night
AL2CCO	Clear	On/Off	ALN2CCO	Clear	Day/Night

T52 VISION SAFE TORCH

- Compact, high powered torch
- High intensity 5W LED
- High or low beam functions
- Adjustable beam spread
- 220 lumens
- Operates on 3 AAA batteries
- Includes wrist strap and pouch

Part No	Description
T52	Metal Torch

VISION SAFE HEADLAMP

- Multi function: Bright beam, low beam, red night light and red and white flashing functions
- Adjustable elasticated band for comfortable fit
- Operates on 3 AAA batteries
- Visible up to 80 meters
- 3 Watt LED - 110 lumens
- Water Resistant

Part No HL3W

GLOW BUG

- Portable personal light source
- Lights up to 3m
- Convenient carabiner clip
- Water resistant
- Operates on 3 LR44 batteries (included)
- Includes a set of spare batteries

Part No	Description
GB25LM	Small Personal Light with Carabiner Clip
GB25LM-12DB	Display Box with 12 x GlowBugs

PERSONAL SAFETY LIGHTS

- Ideal for running, bike riding, warehouse work etc.
- 4 high intensity LEDs
- Features rear clip for easy mounting
- Dimensions: H72mm x W52mm
- Operates on 2 AA batteries
- Includes bike bracket and armband

Part No	Colour	Flash Pattern
PSLR	Red	Static (constant on), flashing or chasing
PSLA	Amber	Static (constant on), flashing or chasing
PSLG	Green	Static (constant on), flashing or chasing
PSLBL	Blue	Static (constant on), flashing or chasing

MINI PERSONAL SAFETY LIGHTS

- 4 high intensity LEDs
- Dimensions: H65mm x W34mm
- Operates on 2 AAA batteries
- Hard Hat Kits also available which includes 1 light and 1 mounting bracket

Part No	Colour	Flash Pattern
SL34R	Red	Static (constant on), flashing or chasing
SL34A	Amber	Static (constant on), flashing or chasing
PSLW	White	Static (constant on) or flashing
HHLK-R	Red	Hard Hat Kit (1x SL34R + 1x Bracket)
HHLK-A	Amber	Hard Hat Kit (1x SL34A + 1x Bracket)

TRAFFIC BATONS

- Ideal for directing traffic safely
- Convenient hand strap and belt clip
- Highly visible with LED lighting
- TB250R features a magnet at the base and a convenient belt clip

TB412RD

PART NO	COLOUR	FLASH PATTERN	DIAMETER	LENGTH	BATTERIES
TB408RD	Red	2 Pattern	34mm	520mm	2 x C
TB408RBG	Red/Blue/Green	6 Pattern	34mm	550mm	3 x C
TB410RD	Red	2 Pattern	34mm	390mm	2 x C
TB412RD	Red	2 Pattern	45mm	550mm	2 x D
TB411T	Red	2 Pattern w/ White LED Torch	42mm	410mm	2 x D
TB411TRG	Red/Green	5 Pattern w/ White LED Torch	42mm	395mm	2 x D
TB250R	Red	2 Pattern w/ White LED Torch	24mm	361mm	3 x AAA

TRIPOD STAND

- Lightweight, compact design
- Suits the TB412 and TB411 LED Traffic Batons and Traffic Cone LED Light
- Easy to attach and release light

TS w/ AL2AAO

TS w/ TB411T

Part No Description

TS Suits TB412, TB411 and Traffic Cone LED Light

REFLECTIVE WARNING TRIANGLES

- Complies with AS 3790-1992 and AS/NZS 1906.1-2007
- Reflective (no LEDs)
- Side Length: 440mm
- Set of 3 triangles
- Folds flat
- Includes hard case for safe storage
- Weighted base for extra stability

Part No
WT3

LED CLUSTERS

- High powered, high intensity LED cluster
- Can be mounted to trucks, emergency vehicles, recovery vehicles, etc.
- Available with 3 x 1 Watt LEDs (AL4103) or 4 x 1 Watt LEDs (AL4104)

Programmable Cluster:

- AL4103 Flash Patterns: Single, Single & Double, Quad, 3 Pattern Cycle, Fade In/Out, Static On
- AL4104 Flash Patterns: Single, Left to Right Single, Double, Single & Double, Left to Right Double, Quad, Left to Right, 6 Pattern Cycle, Fade In/Out, Static On

Slave Cluster:

- Requires independent control unit to enable synchronized and/or selectable flash patterns

- Dustproof and water resistant
- AL4103 Dimensions: H29mm x D41mm x W101mm
- AL4104 Dimensions: H29mm x D41mm x W121mm
- Clear lens version also available

- Linked clusters can be programmed with synchronized flash patterns
- Built in control chip allows independent or linked use

- Ideal for indicators, park lights, brake lights etc
- Economical option for 8 or more linked clusters

Programmable Part No	Slave Part No	Colour	Voltage	LEDs	Current Draw @ 12VDC

*Clear lens version also available **Magenta Version: Clear LEDs with Coloured Outer Lens ***Blue/Red Version: Coloured LEDs with Clear Outer Lens

DOUBLE CLUSTERS

Purchase a Black Bezel to join 2 LED clusters into one Double Cluster.

Part Number	Description
AL4106-BZ	Black Bezel to join two AL4103 LED Clusters
AL4108-BZ	Black Bezel to join two AL4104 LED Clusters

SLIM LED CLUSTER

- Can be mounted to trucks, emergency vehicles, recovery vehicles, etc.
- 6 x 2 Watt coloured LEDs
- Dustproof and water resistant
- CE certified

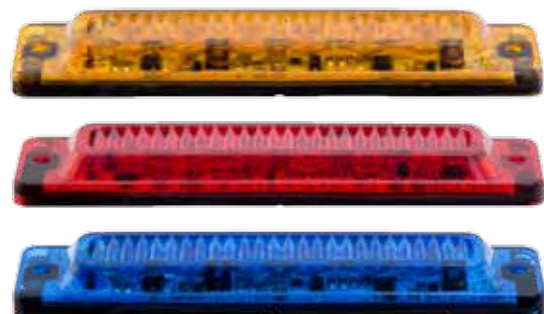

- Clear lens version also available
- Operating temperature: -25° to 85° C
- PC board is epoxy potted for durability and increased lifespan
- Polycarbonate UV stabilised lens and base
- Dimensions: H10mm x D28mm x W113mm

Programmable Cluster:

- Built in control chip allows independent or linked use
- Linked clusters can be programmed with synchronised and selectable patterns
- Flash Patterns: Single, Left to Right, Single & Double, Left to Right Double Alternating, Quad, Left to Right Quad Alternating, California Tile, Fade In and Out, Static On, Quint

Slave Cluster:

- Ideal for low profile indicators, park lights, brake lights etc.
- Requires independent control unit to enable synchronised and/or selectable flash patterns
- Economical options for 8 or more linked clusters

LED FLEXIBLE POLE MOUNT BEACON

- IP56 rated: Dust Resistant and Water Resistant
- 360° horizontal light output
- 80 SMD LEDs
- 1920 lumens
- EMC approval
- Polycarbonate UV stabilised lens
- Operating Temperature: -30° to 50° C
- Includes Din Stem ready to be wired in
- Dimensions: H260mm x D128mm (not including Din Stem)
- Pole Mount diameter 22mm
- Current draw @ 12V: 1.3 Amps

Part No	Colour	Operating Voltage	Flash Pattern
AL803AB/DS	● Amber	12 - 24VDC	Rotating, Double, Quad

LAZER FLASH

- 1 Watt LED
- Linear light emission
- Available in Quad Flash (72 FPM) or Static (constant on) versions
- Coloured LED with Clear Casing
- 10 - 30VDC, 12VAC
- Ready to be wired in
- Current draw @ 12V: 0.02 Amps
- PC board is epoxy potted to extend the life span of the beacon
- Pole mount diameter 13mm

LOW PROFILE LED BEACON

- IP67 rated: Dustproof and Waterproof
- CE Certified
- Hardwire with mounting pins
- Amber lens with 12 amber LEDs
- SMT 5050 3-chip PLCC LED
- Operating temperature: -25° to 75° C
- Polycarbonate UV stabilised lens and base
- Current draw @ 12V: 0.1 Amps
- Dimensions: H45mm x D77mm

Part No	Colour	Operating Voltage	Flash Pattern
ALLPMVA	● Amber	10 - 130VDC	Single, Double, Quad, Static On

INTERIOR LIGHTS

- 24 x 0.25 Watt LEDs
- White casing
- Dimensions: H70mm x D20mm x W150mm
- Coloured LEDs with clear Lens
- Can be made to flash by connecting to a control unit
- Mosquito repellent option - features White LEDs with a yellow lens

Part No	Colour	Operating Voltage	Current Draw @ 12VDC
AL8024ACW-12	● Amber	12VDC	0.12 Amps

AL8024CYW-12	● Mosquito Repellent	12VDC	0.16 Amps

ROTATING BEACON

- Hardwire: Permanent mount without plug
- Magnetic Base: with plug to suit standard automotive power outlet
- Direct Drive for quieter operation
- Meets IP65 international protection standards
- Dustproof and water resistant
- Current draw @ 12V: 4.8 Amps
- Operating temperature: -20° to 50° C

- Speed Rating for Magnetic Base version: 120 km/h subject to appropriate mounting and road conditions
- Hardwire Dimensions: H134mm x D161mm
- Magnetic Dimensions: H151mm x D161mm
- Magnetic Base lead length: 4m
- 12VDC version can be converted to 24VDC with a simple globe change and vice versa

Also available in Dual Colour versions: Blue/Amber, Red/Amber, Red/Blue, Green/Amber

LED BEACON MAGNETIC MINI BAR

- Selectable flash patterns
- Magnetic Base: with plug to suit standard automotive power outlet
- Current Draw @ 12V: 0.8 Amps
- Clear lens version also available
- Operating temperature: -20° to 85° C
- Lead length: 4m
- Customisable light
- Dimensions: H135mm x D140mm x W440mm
- Hardwire version also available
- Also available in Strobe version

LARGE LED MINI BAR

- Hardwire: Permanent mount without plug
- Magnetic Base: with plug to suit standard automotive power outlet
- Customisable light
- Speed Rating for Magnetic Base version: 110 km/h subject to appropriate mounting and road conditions
- IP66 rated: Dustproof and Water Resistant

- Selectable flash patterns
- Optional coloured LEDs with clear lenses
- Current draw @ 12V: 6.4 Amps
- Hardwire: H149mm x D181mm x W398mm
- Magnetic: H166mm x D181mm x W398mm
- Magnetic Base lead length: 4m coiled cable
- Available in dual colour versions

SLIMLINE LED MINI BAR

- Ultra low profile
- 180° vertical light output
- 360° horizontal light output
- IP66 rated: Dustproof and Water Resistant
- Hardwire: Permanent mount without plug
- Magnetic Base: with plug to suit standard automotive power outlet
- Current draw @ 12V: 0.6 Amps
- Magnetic Base lead length: 4m

- Speed Rating for Magnetic Base version: 110km/h subject to appropriate mounting and road conditions
- Robust design to withstand tough conditions
- 3 sided End Caps with 4 x 1 Watt LEDs per side
- 4 x 1 Watt LEDs on front and back
- Dimensions: H65mm x D200mm x W373mm (height excluding mounting feet or magnets)
- Magnetic Base features 3 Rare Earth magnets

BLUE SPOT BEAM

- Forklift safety light
- Projects a blue beam of light on the ground to warn pedestrians
- High intensity blue LED
- 3250 lumens

- 12 Watt Flip Chip LED
- IP67 rated: Dustproof and Waterproof
- Reverse polarity and voltage spike protected
- Operating temperature: -25° to 75° C
- Dimensions: 98mm x 76.5mm x 75mm

Part No	Colour	Operating Voltage	Current Draw @ 12VDC
ALV412BC	Blue	12-80VDC	1.0 Amp

CLEANAIR TREATMENT

- Refreshes stale, musty air conditioning and heating systems
- Helps provide a clean and healthy environment in just one application
- Scientifically formulated to reduce airborne malodour by neutralising and deodorising

- Eradicates bacteria, germs, mould and fungus
- Fine mist spray easily travels through entire air conditioning system including vents, filters, compressors and hoses
- Suits automotive, evaporative and reverse cycle systems

Part No ACT500ML

TALL STROBE BEACON

- Single Flash
- Hardwire: Permanent mount without plug
- Polycarbonate UV stabilised lens
- Current draw @ 12V: 0.5 Amps
- Operating temperature: -20° to 85° C
- Dimensions: H130mm x D74mm

NATIONAL WORKPLACE FIRST AID KIT

Workplace Guide: Standard Workplace with up to 100 staff, Construction Sites with up to 25 staff.

Ideal for: Medium – Large workplaces, sporting clubs, factories, restaurants, 4WDs, remote areas, farms, work vehicles and trucks.

The National Workplace Kit is an innovative first aid kit that contains the easy to use 5 module treatment set. The complete set comprises of: Burn Module, Haemorrhage Module, Eye Module, Minor Wound Module & an Additional Stock Module. Each module contains clear and easy to understand first aid instructions and a comprehensive maintenance check list ensuring the workplace kit remains serviceable. In emergency situations the modular system allows the first aider to react quickly and effectively in providing appropriate emergency treatment.

This kit meets or exceeds the requirements in the 'First Aid In The Workplace, National Code of Practice'. Including the requirements of outdoor work, remote work & burn injuries.

NATIONAL WORKPLACE - WALL MOUNTABLE

- Wall mountable
- Innovative easy to use 5 Module Set
- Easy view clear door
- Room for additional products
- Comprehensive maintenance check list

NATIONAL WORKPLACE KIT MODULES

BURN MODULE

A range of gel treatment products and dressings to rapidly cool the burn, helping to prevent further tissue damage, aid the healing process and offer rapid and ongoing pain relief.

Qty Contents

8	Burn gel 3.5g
2	Burn dressing 10 x 10cm
2	Gauze bandage 7.5cm
2	Burn treatment instruction cards - Waterproof
1	Clean polythene sheets (Small, Medium, Large)
2	Disposable nitrile gloves (1 Pair)
2	Safety pins

Part No

FAWNBM

HAEMORRHAGE MODULE

Contains large wound dressings and bandages for the first response treatment of major bleeding.

Qty Contents

4	Disposable nitrile gloves (2 Pairs)
1	Combine dressing 10 x 10cm
1	Combine dressing 20 x 20cm
2	Crepe bandage 10cm
1	Emergency thermal blanket
1	No. 15 sterile wound dressing
1	No. 14 sterile wound dressing
2	Triangular bandage
2	Safety pins

Part No

FAWNHM

EYE MODULE

For the rapid treatment of eye injuries including single use saline eye wash and eye wash bottle.

Qty Contents

8	Sodium chloride ampoule 15ml
2	Disposable nitrile gloves (1 pair)
1	Eye wash bottle 100ml
1	Paper dressing tape 1.25cm
5	Gauze swabs 3pk 7.5 x 7.5cm
4	Eye pads

Part No

FAWNEM

MINOR WOUND MODULE

Easy to use module containing all the products you need to treat minor cuts, abrasions and splinters.

Qty Contents

50	Adhesive fabric dressing strips
6	Non-adherent dressing 7.5 x 5cm
3	Non-adherent dressing 7.5 x 10cm
1	Non-adherent dressing 10 x 10cm
2	Disposable nitrile gloves (1 Pair)
2	Gauze bandage 5cm
1	Paper dressing tape 2.5cm
1	Tweezers
1	Scissors sharp/blunt
10	Antiseptic wound wipe (1% Cetrimide BP)
10	Disposable splinter probe
1	Antiseptic spray 50ml
10	Knuckle/fingertip dressings
10	Adhesive square plasters
10	Adhesive round plasters
10	Adhesive mini strips
2	Safety pins

Part No

FAWNMW

ADDITIONAL STOCK MODULE

Contains additional stock for replenishment and to ensure your kit meets the guidelines for first aid in the workplace, regardless of which state or territory you work in.

Qty Contents

2	Triangular bandage
2	Island dressing 7.5 x 5cm
2	No.15 sterile wound dressing
1	Instant ice pack
1	Notebook and pencil
1	Pen
1	Disposable CPR face shield
1	Plastic bag small
1	Plastic bag medium
1	Plastic bag large
1	Gauze bandage 7.5cm
1	Gauze bandage 5cm
1	Sharps disposal container 90ml
10	Alcohol swab
10	Safety pins
20	Cotton bud applicators
1	Penlight
1	Whistle
1	First aid pamphlet

Part No

FAWNAM

All modules include detailed instructions for the appropriate first aid treatment. They also contain a comprehensive maintenance checklist ensuring the workplace kit remains serviceable.

ALL PURPOSE WORKPLACE FIRST AID KIT

Workplace Guide: Standard Workplace with up to 50 staff, Construction Sites with up to 20 staff.

Ideal for: Small - Medium workplaces, work & tradesman's vehicles, recreational activities, remote areas & sporting clubs.

The All Purpose Kit is a comprehensive first aid kit enabling it to be used in a variety of situations, both occupational & recreational. This kit is ideal for workers who require a complete first aid kit suitable for use both at work and at play.

This kit meets or exceeds the requirements in the 'First Aid In The Workplace, National Code of Practice'.

ALL PURPOSE - PORTABLE SOFT CASE

THE CUTTING EDGE OF SAFETY

The Safety Knife Company range features high quality safety knives manufactured in the United Kingdom using superior materials including Sheffield Steel blades.

These versatile, heavy duty knives are suited to packaging, warehouse and rescue applications. They are ergonomically designed with impact resistant casings and enclosed blades for extra protection for both the user and package.

METAL DETECTABLE PRODUCTS

Designed for food, pharmaceutical and manufacturing industries

Metal detectable products are able to be detected and rejected by metal detection systems and x-rays

Reduces the risk of contamination

Safety Knives are moulded with a metal detectable additive and use stainless steel blades

Please test detectability of all metal detectable products on your detection equipment prior to use

All metal detectable products come in a standard 'Metal Detectable' blue, with Penguin 900 and Fish 600 also available in a range of metal detectable colours to allow for colour coding systems

NEWCASTLE HATS

The Newcastle Hats collection includes stylish Australian Made work and outdoor bush hats.

From humble beginnings in NSW in 1988, the Newcastle Hats range pioneered the concept of the washable, squashable hat. Now manufactured in WA, this range of innovative headwear designs is highly customisable so hats can be tailored to suit customer's needs. Excelling in both small custom runs and large corporate orders, flexibility of production and quality of product are the hallmarks of Newcastle Hats.

CUSTOM OPTIONS

In addition to the Newcastle Hats range, we offer fully customised hats in short runs for individual customers. We can design and manufacture to your specific requirements, with no minimum quantities and very reasonable prices. The most common customisation is the application of company logos, however we can also alter brim size, colour, fabric type and add other features as listed below, to meet specific industry or business safety requirements. **Contact our friendly staff for a quote.**

CAN BE ADDED AFTER PRODUCTION

(AVAILABLE ON ALL HATS)

Chin Strap + Toggle
Removeable Reflective Band (Orange, Lime or White)
Neck Flap (Press Studs)
Fly Net (Easy View Net)

ADDED DURING PRODUCTION

(NOT AVAILABLE ON ALL HATS)

Gusset Lining
Elastic (Reduces hat size)
Logos (Embroidery, Dye Sublimation and Transfer)
Reflective Band
Neck Flap

BRIM SIZES

S 5cm*
M 7cm*
L 9cm*
XL 11cm*

*Brim measurements can vary by 2cm depending on hat size

GLOSSARY

Single Sided – features main fabric on top, 4.8mm open cell foam laminate middle layer, nylon fabric on underside

Double Sided – features main fabric on top and underside, 4mm open cell foam middle layer

2-Tone – one colour on top with second colour on underside

Open Cell Foam Laminate – polyurethane foam bonded between two layers of fabric in the brim or gusset

Brimlock – a flexible plastic wire sewn into the edge of the brim that holds its shape and bounces back

Wire – a semi-rigid metal wire sewn into the edge of the brim giving a sturdy shape

Fabric Tape – a narrow strip of fabric used to bind edges or for decoration

Cotton Drill – a durable 100% cotton fabric that is easy to clean and long lasting

Gaberdine – a soft comfortable fabric composed of polyester, viscose & rayon blend

Micro Mesh – a soft breathable 100% polyester fabric

Synthetic Felt (Silon) – a 1mm thick non-woven fabric composed of polyester, viscose & poly propylene & treated with NBR latex

Oilskin – 100% cotton treated with paraffin waxes to provide a water repellent surface with soil removal properties

Canvas – a heavyweight fabric made from twin layers of 100% cotton laminated together for increased durability

Micro Suede – a waterproof, breathable microfiber with the durability of leather and the benefits of a synthetic fabric

Faux Leather – micro suede bonded with a breathable microfibre to achieve a leather look finish

Breeze – an open PVC coated polyester mesh material

Breeze Lining – an optional lining available for Breeze style hats to provide additional sun protection

Brow Lining – an absorbent lining sewn into the front of the gusset for added comfort and sweat absorption

Terry Towelling Backing – used as a bonded lining for comfort and sweat absorption in select hat gussets

Feature Cotton Lining – 100% cotton fabric printed with vibrant Australian designs

All Newcastle Hats headwear products displaying a 50+UPF logo are compliant with AS/NZS 4399 where applicable.

All materials are subject to change, based on availability and manufacturer's discretion.

EAR PLUGS

SAFETY UNDER THE SUN

UVeto Australia is a specialist brand of sun protection apparel focused on the development of innovative products to protect the wearer from dangerous UVR (Ultra Violet Radiation) for both work and leisure. All of our sun safe products are made from quality fabrics and provide a UPF 50+ (Ultra Violet Protection Factor) rating where possible.

So whether you work outdoors or spend your leisure time in the open air - you can trust UVeto Australia products to help minimize the risk.

THE ULTIMATE SKIN PROTECTANT

Derma Guard supersedes traditional barrier creams, and is an efficient and cost effective method of providing a skin protection solution for your workforce. Derma Guard is much more than a simple barrier cream, and in fact offers both a modern solution to many skin hygiene problems as well as providing unparalleled protection against a huge range of skin irritants. Supplying both preventative and protective skin care, Derma Guard is a must for any employer seeking a practical and cost effective employee safety programme.

DERMA GUARD - THE ULTIMATE SKIN PROTECTANT

WHAT DOES IT DO?

- Protects the skin against paints, oils, greases, petrol, diesel, strong odours, carbon, fiberglass, resins, glues (including super glue), and most solvents
- Provides temporary emergency protection against many acids and bases
- Increases comfort of gloves by reducing excess sweating
- Helps make latex and vinyl gloves more comfortable by placing an invisible barrier between the latex and the skin reducing glove irritation
- Antibacterial and provides a proven biological fluid barrier
- Works under the harshest conditions to provide skin protection against a huge range of irritants
- Assists with skin conditions such as dermatitis, eczema and psoriasis
- Moisturises, nurtures and protects dry, cracked or damaged skin
- Helps prevent skin splits and cracks from reappearing
- Helps the skins natural defences

HOW DOES IT WORK?

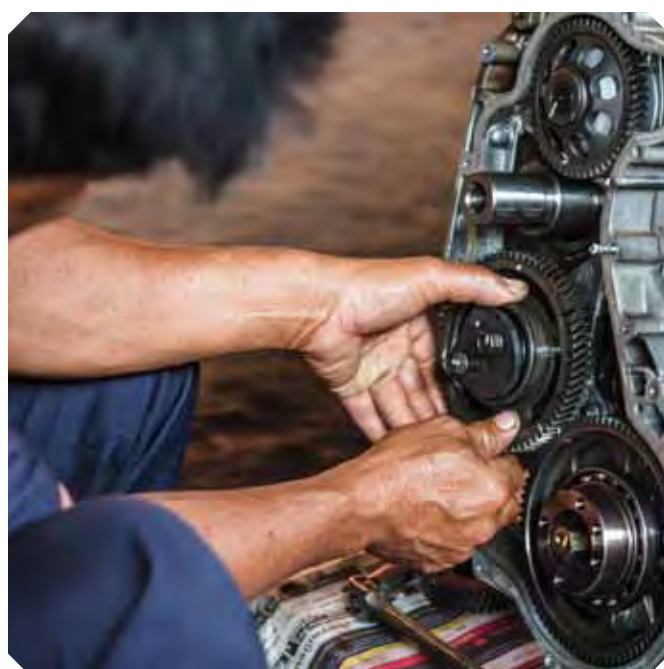

- Locks onto your skin to form an invisible, non-greasy, microscopic mesh over your skin providing a strong barrier to anything trying to attack your skin
- Does not affect the skin's ability to breathe and perspire
- Provides top quality skin moisturisers to help the skins natural defenses repair damaged, cracked or split skin

WHAT MAKES IT UNIQUE?

- One application lasts 4 hours despite repeated washing
- Can be applied to any area of your skin
- Sinks right into the skin rather than sitting on the skin
- Utilises Silicon Triad® process
- Light, non-greasy cream that sinks into the skin within 3 minutes of application
- Clinically tested to reduce wash up times by up to 60%

WHAT OTHER FEATURES DOES IT HAVE?

- Non toxic
- No added fragrance
- Contains high-grade pharmaceutical moisturisers to prevent the skin drying out
- Food safe
- Contains Aloe Vera, Vitamin E, Lanolin and Palm Kernel Oil to nourish skin

DERMA GUARD CREAM

- Available in a pump pack or convenient tube
- Aeroplane friendly

RISK FREE DERMA GUARD TRIAL

We believe Derma Guard will outperform any cream or gel based skin protection systems currently available in the marketplace – and we're prepared to prove it. Vision Safe is offering a risk free trial program, for authorised distributors to offer to their customers.

Contact our office for more information on the trial terms and conditions.

Available only to Vision Safe distributors

>>> CYLINDER RESTRAINTS >>>

KEEPS CYLINDERS SECURE

BOTTLECHOCK is an Australian designed and manufactured storage solution system for gas cylinders, drums, piping and other cylindrical objects. Tried and tested in workshops and harsh outback conditions across the country, the unique design and rugged functionality of the **BOTTLECHOCK** system stands out from the pack of cylinder restraint options.

Stainless steel components matched with either galvanised or stainless steel brackets and a flexible UV stabilised nylon restraint, **BOTTLECHOCK** is designed for cylinder security in both fixed positions and while in transport, creating a safer working environment. Available in a wide range of sizes to suit a diverse array of cylinder quantities and sizes, **BOTTLECHOCK** has a product option to suit almost any cylinder storage requirements.

BOTTLECHOCK FEATURES

- Purpose designed to keep cylinders secure
- Suits gas cylinders, oxygen tanks, fire extinguishers, oil drums etc.
- Grips around and keeps in full contact with the cylinder
- Restricts both horizontal and vertical movement
- In multiple fittings, BOTTLECHOCK secures each cylinder individually
- Easy to install inside buildings or to vehicle trays using bolts (not supplied)
- Quick cylinder changeover with one pull on straps
- Flexible design makes it easy to 'snap' cylinders into place
- Cylinders don't have to be lifted, helping to prevent injury
- Quick release pins free up space when not in use, and allow use in another location

CONSTRUCTION

- Available in 1.6mm thick galvanised or 316 stainless steel brackets
- Kits include both top and bottom fittings
- Size (cylinder diameter): Small (100-145mm), Medium (160-230mm), Medium Large (230-310mm), Large (245-375mm)
- Available with red or hi vis yellow chock
- Specialised Oxygen/Acetylene kits available in two sizes, in both galvanised and 316 stainless steel brackets

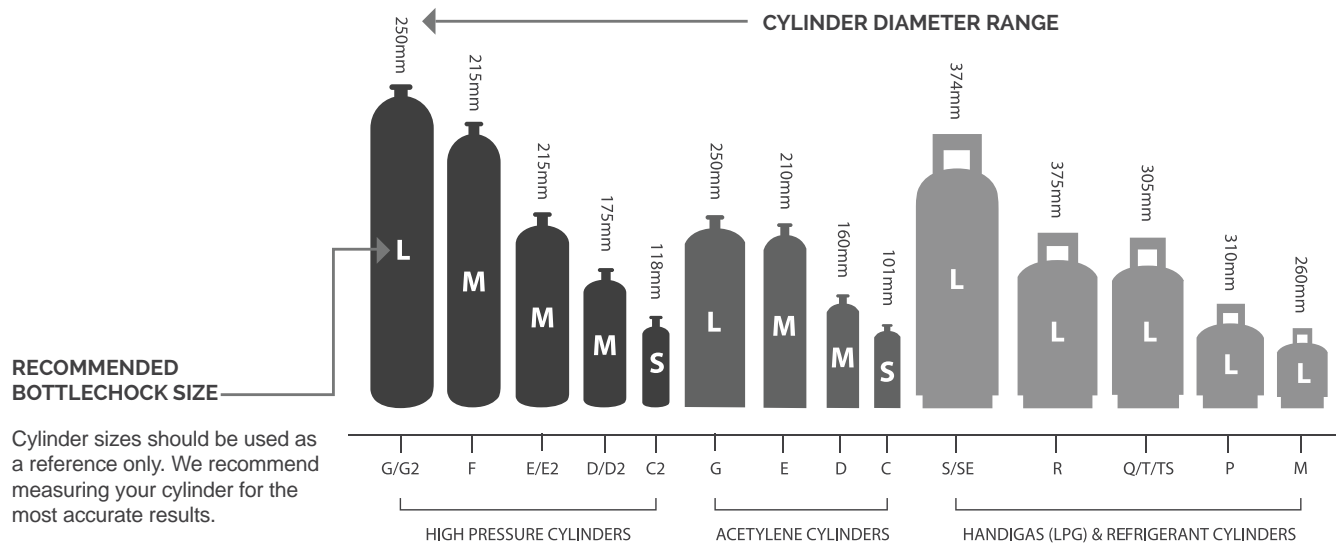

TECHNICAL SPECIFICATIONS

- Flexible nylon chock material is UV stabilised during manufacture
- All non-metal components are highly combustion resistant & self-extinguishing
- All metal components of the kit with the exception of the mounting brackets are manufactured from stainless steel for strength and corrosion resistance
- Brackets are available in either galvanised steel or 316 stainless steel. The steel brackets are galvanised for corrosion resistance. 316 stainless steel's improved corrosion resistance make it ideal for marine and specialty applications.

**BOTTLECHOCK IS PROUDLY
AUSTRALIAN MADE AND
DESIGNED**

EYE SAFETY WITH STYLE

VISIONSafe's Safety Eyewear selection offers sleek and functional high quality eye protection for personnel in most industrial situations, and is certified fully compliant with Australian standards AZ/NZS 1337.1 and AS/NZS 1067 where applicable.

With two unique product ranges to choose from, VISIONSafe's Safety Eyewear collections have a product to suit users from across the entire industrial and recreational usage spectrum.

AUSTRALIAN/NEW ZEALAND STANDARDS

AS/NZS 1337.1 Personal Eye Protection – Eye and face protectors for occupational applications

This Standard specifies minimum requirements for non-prescription eye and face protectors and associated oculars. They are designed to provide protection for the eyes and faces of persons against common occupational hazards such as flying particles and fragments, dusts, splashing materials and molten metals, harmful gases, vapours and aerosols. Requirements for optical qualities and low, medium, high and very high impact resistance are given.

Safety Glasses Impact Rating

Impact protection is specified by the Standard AS/NZS 1337.1:2010

Impact protection is determined by the metres per second in which a projectile travels

A ballistic test rig fires a 6.00mm or 6.35mm ball at speeds of 12m/sec up to 120m/sec

IMPACT RATING	VELOCITY (METERS PER SECOND)		TYPE OF PROTECTOR
	6.0MM BALL	6.35MM BALL	
Low Impact	13 m/s	12 m/s	Safety Glasses
Medium Impact	45 m/s	40 m/s	Safety Glasses, Goggles
High Impact	120 m/s	110 m/s	Visor Systems

AS/NZS 1067 Sunglasses and fashion spectacles

This Standard specifies minimum requirements for sunglasses and fashion spectacles and sunglass lenses of nominal plano power - excluding (any) prescription lenses - intended for protection against solar radiation for general use, and social and domestic purposes, including road use and driving.

LENS CATEGORY	LUMINOUS TRANSMITTANCE RANGE	VISIONSAFE LENS TINT
0	80-100%	Clear, Orange, Amber
1	43-80%	Silver I/O Mirror, Blue
2	18-43%	
3	8-18%	Smoke, Brown, Dark Silver Mirror, Blue Mirror
Outdoor Untinted	80-100%	Clear, Orange, Amber

Sunglasses that comply with the requirements of AS/NZS 1067 should be labelled to state this compliance

AVAILABLE LENS OPTIONS

Smoke Tinted - Smoke tint is ideal for prolonged use outdoors. The smoke tint reduces light intensity without impairing vision or affecting colour transmission.

Clear - Premium optical clarity maximising light transmission.

Brown Tinted - Brown tinted lenses block blue light commonly found in diffused light conditions such as on a cloudy day.

Amber Tinted - Amber tint is recommended for use in low light conditions as it enhances contrast and depth perception. Not recommended for prolonged use.

Blue Mirror - Blue Mirror coating over smoke lens, ideal in the outdoors as these lenses cut glare without interfering with colour perception.

Indoor/Outdoor Silver Mirror - Silver Mirror coating over clear lens (Indoor/Outdoor); lenses are ideal where personnel are constantly moving from interior lighting to exterior lighting.

Polarised - Polarised lenses cut glare by aligning reflected light waves into the horizontal plane. They allow for the natural perception of colour with no compromise of reds, greens and yellows.

IR3/IR5 Lens - IR3 and IR5 shade lenses protect the eyes from harmful light transmissions emitted during certain gas welding applications, brazing or cutting. NOT suitable for electric arc welding.

Anti-Fog Coating - The Anti-Fog Coating reduces or eliminates fogging on lenses.

LENS MARKINGS - LOOK FOR THESE MARKINGS ON YOUR LENSES

 **S** - General Purpose

 **I** or **F** - Medium Impact

 **V** - High Impact

 **O** - Outdoor Use

 **P** - Polarised

VU-KLEARPLUS LENS SPRAY

- Alcohol free, germicidal cleaning solution
- Anti-fog and anti-static spray
- Easy to use pump pack
- For all plastic and multi-coated eyewear lenses, camera lenses, computer screens and mobile phones
- Suits both prescription and safety glasses, including anti-fog

Part No	Description
VUKSPR1	Lens Cleaning Spray - 30ml
VUKSPR12	Lens Cleaning Spray - Box of 12

VU-KLEARPLUS FOG-OFF STICK

- Provides anti-fog and anti-static coating to lens
- Suits both industrial and sporting equipment including spectacles, goggles, visors, scuba masks, gas masks etc.
- Simple to apply

Part No	Description

- Alcohol free cleaning towelette
- Available in standard aluminium foil sachets or aluminium free sachets
- Anti-fog and anti-static properties
- 300 sachets in dispenser box
- For all plastic and multi-coated eyewear lenses, camera lenses, computer screens, mobile phones etc.

Part No	Description
VUKDISP	Standard Sachet
VUKDISP-ALF	Aluminium Free Sachet

MULTI FIT SIDE SHIELDS

- Clear: allows maximum light transmission
- Tinted: adds UV protection and minimises glare
- Clear Blue: reduces glare while improving clarity and sharpness of vision
- Designed to attach easily to standard prescription frames
- Available in two sizes to suit most prescription frames
- Can be removed and refitted as required

Part No	Tint	Size
MS-EO-ML-C B52	Clear	Medium - Large
MS-EO-ML-T B53	Tinted	Medium - Large
MS-EO-SM-C B26	Clear Blue	Small - Medium
MS-EO-SM-T B27	Tinted	Small - Medium

DISPOSABLE SIDE SHIELDS

Part No	Description
DP-Side	One pair of single use clear side shields

CLIP ON LED LIGHTS

- Clips on to provide focused light to your work area
- Suits safety glasses, caps etc.
- Set of two lights per pack
- Operates on 2x CR2032 batteries per light (included)
- Comes complete with a set of spare batteries

Part No	Description
CO-LED-2	Pack of Two Clip On LED Lights

BELT CASE

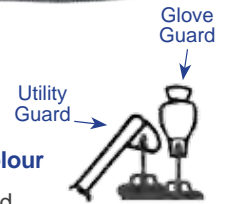

- Eyewear case
- Durable nylon
- Protects against dust, moisture etc.
- Zippered case
- Belt loop for secure attachment

Part No	Description
B Case	Belt Mounted Eyewear Case

EYEGLASSES BAG

- Protects against dust, moisture etc.
- Available with belt loop (Glove Guard®) or waistband (Utility Guard®) attachment
- Zippered closure
- Available in red or blue

Part No	Attachment	Colour
GG EGB RD	Glove Guard®	Red
GG EGB BL	Glove Guard®	Blue
UG EGB RD	Utility Guard®	Red
UG EGB BL	Utility Guard®	Blue

MICROFIBRE CLEANING CLOTH

- Re-useable, washable lens cleaning cloth
- Handy neoprene tissue box style pouch
- Cloth suitable for all lens types
- Clip attaches easily to key ring, belt loop etc

Part No	Description
NTB	Microfibre Lens Cleaning Cloth

DRAWSTRING MICROFIBRE BAG

- Anti-static microfibre material
- Sized to suit most safety spectacles
- Effective drawstring closure protects contents from dirt and dust
- Doubles as a lens cleaning cloth
- Machine washable

Part No	Description
MFB-BK	Black Drawstring Microfibre Bag
MFB-BL	Blue Drawstring Microfibre Bag
MFB-RD	Red Drawstring Microfibre Bag
MFB-GY	Grey Drawstring Microfibre Bag

CORDS

- Adjustable to suit a variety of glasses
- Strong synthetic weave
- 5 colour options

Part No	Description
CORD-BK	Black Cord
CORD-OR	Orange Cord
CORD-GN	Green Cord
CORD-RD	Red Cord
CORD-YW	Yellow Cord

ADJUSTABLE STRAPS

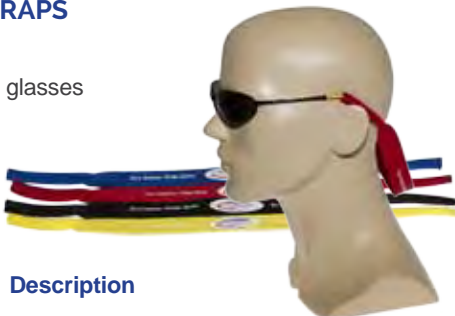

- Soft cotton knit
- Suits a variety of glasses
- Durable and comfortable design
- Fully adjustable
- 4 vibrant colours
- Covered ends

Part No	Description
AD-Strap-BK	Black Adjustable Strap
AD-Strap-BL	Blue Adjustable Strap
AD-Strap-RD	Red Adjustable Strap
AD-Strap-YW	Yellow Adjustable Strap

NEOPRENE STRAPS

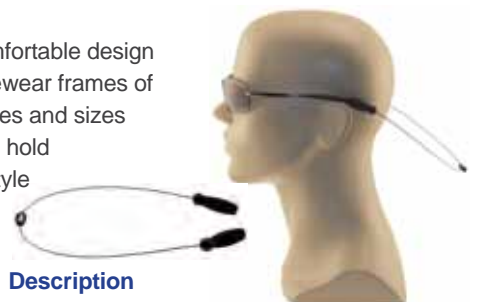

- Water resistant
- Suits a variety of glasses
- Non-slip
- Vibrant colours

Part No	Description
NeoStrap-BK	Black Neoprene Strap
NeoStrap-BL	Blue Neoprene Strap
NeoStrap-RD	Red Neoprene Strap
NeoStrap-YW	Yellow Neoprene Strap

MYSTRAP

- Durable and comfortable design
- Adaptable to eyewear frames of a variety of shapes and sizes
- Non-slip, reliable hold
- Inconspicuous style

Part No	Description
MyStrap	Eyewear Strap
